

# New Self-Service Portal!

We're excited to launch our new online Self-Service portal. Beginning **May 13, 2019**, it will be easier to search for information related to Community Development business functions.

Our intuitive, 24/7 interface will enable residents, business owners, contractors and other interested parties to:

- View the status of a Plan Review for permits
- View and schedule Inspections for permits
- View the status of Development Applications
- View and pay Business Tax Receipts
- View the status of Code Compliance cases

This new system offers a range of user benefits, including:

- Enhanced customer service
- Real-time information
- Electronic notifications
- Increased transparency

You don't need to log in to search the portal database; accounts are required only if you're requesting an inspection or paying for a Business Tax Receipt.

Beginning Monday,  
May 13, please visit  
[sunrisefl.gov/openforbusiness](http://sunrisefl.gov/openforbusiness)  
to access the new  
Self-Service portal!

**Have questions, or want to verify records created prior to May 13, 2019?  
Call one of our Community Development divisions for help:**
